Meeting Agenda

Group: grupp77
Date: 21/10
Chair: David
Participants: David, Elin, Alexey, Hampus, Martin

Objectives (5 min)

- Plan presentation
- Talk priorities
- Reassign parts in RAD/SDD

Reports (15 min) from previous meeting

Elin: Written more tests and comments for Model, and comments for Control. Also added info text in writing view for recipient format. Small fixes in introduction in SDD and RAD.
Alexey: Fixed NPE bug for attachments.
Martin: Written in SDD, fixed correct webview size, fixed some exception handling, refactored attachments and suggestions. Got Microsoft smtp to work.
David: Fixed filter buttons, gone through the project and updated scopes of variables and classes.
Hampus: Fixed so that clearing search does not clear filters and vice versa. Filters are applied after refresh and folder change. Tried getting JDepend and PMD to work. JDepend works but not PMD.

Discussion items (35 min)

Priorities:
- Fix PMD issues.
- Do folder.add() and folder.remove() and move moving email functionality into Model as much as possible.
- Implement Mediator Pattern for filtering and searching after clearing.
- Move Exceptions to the package which uses them again. Ask Aline about exception handling between control and controllers.
- Format code into common format.
- Update design model and system design in RAD.
- Update known issues in SDD.
- Make sent emails be stored under 'sent'.
- Look at potential thread bugs...

Outcomes and assignments (5 min)

- Outcomes from discussion items. Write down what's decided and why it was
Everyone: Javadoc, formatting, and design model.
Martin: saveSent, thread issues, reply correct email bug. Fix pretty attachments. SDD Write dynamic binding about state and observer pattern. SDD write about packages (except textfinding).
Elin: model.add(), model.remove(). Exceptions handling in control
Alexey: reformat into smaller methods and abstract in ESP part.
David: Fix sketches in RAD. controlfx ref.
Hampus: Mediator for search, filter and clear. Quality in SDD + fix PMD errors. Write about TextFinder-package in SDD.

Wrap up

No more meetings :D
